Machine Registration Code:

By registering, you will be eligible to receive personalized offers, new coffee samples, recipe ideas and more. Offer good in the U.S. only. Full details at www.dolce-gusto.us. Void where prohibited.

IMPORTANT! SET UP YOUR MACHINE FOR THE FIRST TIME

Before enjoying your first cup of NESCAFÉ® Dolce Gusto® coffee, it is important to properly set up your machine by following steps 1 through 6.

Remove the water tank and fill with drinking water to the maximum fill level. Then, place it snugly back into the machine.

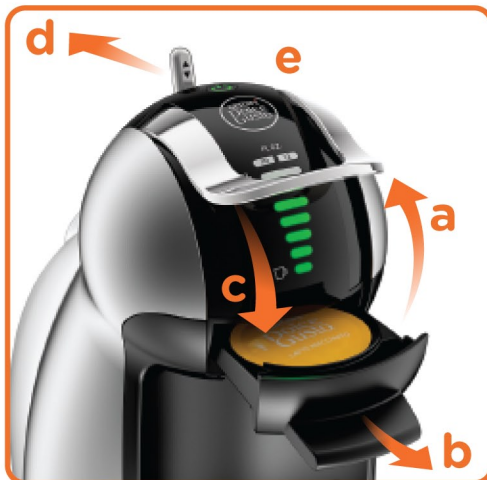

Move lever backward to set BARS to maximum level.

Rinsing the machine
The loud sound you will hear is normal.
First, move the lever all the way to the left to dispense cold water. The lever will automatically return to the center STOP position after dispensing cold water. Next, move the lever all the way to the right to dispense hot water. You may have to do this a few times.

If no water comes out, we are available to assist you by phone or text 24/7 at 1-800-745-3391.

MAKE YOUR FIRST CUP

- a. Raise locking handle to unlock capsule holder.
- b. Pull out capsule holder and **remove rinsing tool**.
- c. Insert 1 capsule into capsule holder, re-insert capsule holder snugly, then lower the locking handle and lock tightly.

- d. **A** Move selection lever forward or back to adjust the BARS on the machine to match the BARS indicated on top of the capsule.
- e. Move lever to the right (hot) or the left (cold) based on your selected beverage.

For black coffee:
You will use 1 black coffee capsule.

For specialty coffee:
First, use 1 white milk capsule. Then, use 1 black coffee capsule.
